PAINT PROTECTION FILM

Protexa Paint Protection Film - ACE Series

Engineered for enhanced protection, combining increased film thickness with superior durability to provide an advanced shield against the demands of everyday driving. Its robust construction offers added resistance against stone chips, road debris, scratches and surface abrasions. A high-performance hydrophobic surface helps repel water, dust, mud and everyday contaminants, making maintenance easier while maintaining a clean finish. With heat-activated self-healing technology, helps minimize the appearance of light scratches, delivering long-lasting protection with a premium finish.

Material Base	Thermoplastic Polyurethane (TPU)
Total Finished Product Thickness	335 Microns (13.4 mil)
Film Thickness (Top Coat + TPU + Adhesive)	210 Microns (8.4 mil)
Roll Size Coverage	250 sqft
Surface Finish	High Gloss
TPU Raw Material	Lubrizol
Adhesive Technology	Ashland
Peel Adhesion	≤0.35 (N/25mm)
Elongation At Break	> 312%
Yellowing Resistance	≤ 2
60° Surface Gloss	98
Warranty	8 Years

T&C

ProteXa and SolarShield both brands are owned by AK Automotive Private Limited.
