PAINT PROTECTION FILM

Protexa Paint Protection Film - MATTE Series

It combines reliable paint protection with a sophisticated satin-matte finish, transforming the appearance of your vehicle while helping safeguard its original paint. Engineered to protect against everyday road hazards, scratches, stone chips, road debris and surface abrasions, the film provides a durable protective layer. Its self-healing properties help minimize the appearance of light surface marks and imperfections. Protexa MATTE delivers the ideal balance of protection, durability and distinctive styling for those who prefer a refined, stealth-inspired finish.

Material Base	Thermoplastic Polyurethane (TPU)
Total Finished Product Thickness	310 Microns (12.4 mil)
Film Thickness (Top Coat + TPU + Adhesive)	185 Microns (7.4 mil)
Roll Size Coverage	250 sqft
Surface Finish	Matte
TPU Raw Material	Lubrizol
Adhesive Technology	Ashland
Peel Adhesion	≤0.35 (N/25mm)
Elongation At Break	> 300%
Yellowing Resistance	≤ 2
60° Surface Gloss	Matte finish
Warranty	5 Years
