PAINT PROTECTION FILM

Protexa Paint Protection Film - PRO Series

Protexa PRO PPF is engineered to provide advanced everyday protection while maintaining the vehicle's original paint, finish and visual appeal. Its high-performance hydrophobic top coat resists dust, water, mud and environmental contaminants, helping simplify routine cleaning and maintenance. Enhanced with heat-activated self-healing technology, the film helps reduce the visibility of minor scratches, scuffs and swirl marks, allowing your vehicle to retain a refined, well-maintained appearance for longer.

Material Base	Thermoplastic Polyurethane (TPU)
Total Finished Product Thickness	310 Microns (12.4 mil)
Film Thickness (Top Coat + TPU + Adhesive)	185 Microns (7.4 mil)
Roll Size Coverage	250 sqft
Surface Finish	High Gloss
TPU Raw Material	Covestro
Adhesive Technology	Ashland
Peel Adhesion	≤0.35 (N/25mm)
Elongation At Break	> 303%
Yellowing Resistance	≤ 2
60° Surface Gloss	94
Warranty	5 Years

T&C

ProteXa™ and SolarShield® both brands are owned by AK Automotive Private Limited.
